Benefits are subject to change.

THE IMPACT OF CORPORATE CONNECTIONS

The Corporate Connections Program at Chicago Children's Museum helps us respond to the needs of Chicago's children and families, particularly those from underserved communities. Your investment in our vibrant museum:

PROVIDES ACCESS

We proudly provide over 2,000 visitors per month with steeply discounted admission through our *Museums for All program*: an innovative program that ensures access to the museum for children experiencing food insecurity. Help us make it possible for *all* families to benefit from the museum's supportive and enriching environment. Together, we ensure that *all* children can participate in experiences that help ignite the spark of lifelong learning.

FUNDS PROGRAMMING

At Chicago Children's Museum, children don't just learn about science, math, engineering or the arts — they learn by *doing*: creating, building, innovating, testing, and problem-solving. Our daily programs include tinkering challenges, hands-on math activities, art workshops, dance and music performances, and much more. Join us in helping children put learning into action!

SUPPORTS EXHIBITS

With 13 permanent experiences and 2-3 new rotating exhibits each year, we make sure the museum's play and learning opportunities are always fresh and innovative. Support our talented team of designers, educators, and early childhood specialists in creating our next imaginative exhibit or enhancing one of our popular permanent experiences like *Skyline* or *Tinkering Lab*.

We look forward to working with you to find the right fit for your company's civic and philanthropic interests. We are a creative institution that enjoys thinking outside the box and designing unique ways for donors and partners to contribute. Let us know how you would like to make an impact, and we'll come up with some ideas!

CORPORATE CONNECTIONS MEMBERSHIP PROGRAM
